

Hello Florists!

Here at Shady Acres Farm we love working with florists on a one-on-one basis, helping you create your artistic visions with our wide variety of seasonal blooms.

Our approach to working with each florist is as unique as our selection of flowers. By creating a personalized, friendly, seamless experience for you and your business, we aim to make beautiful bouquets together.

As a florist you can schedule to cut your own blooms at any scheduled time, giving you freedom to choose your most perfect stems.

We offer scheduled, or even last-minute pick-up options as well as delivery for a small fee. Let's get together and chat about how we can make your vision come to life!
